

# Sire Common Areas

With Measurements

## Determining the amount of common area behind homes on the golf course

- Many have asked where our common areas begin and end around the golf course. To help answer those questions, we thought it would be helpful to provide an example of how to calculate the amount of common area behind individual properties using the PimaMaps site.
- The following steps should help give those interested a pretty fair estimate of how much common area is behind one's home.

The map shows a topographic view of a desert landscape with a green-shaded area representing a subdivision. A road labeled 'S SASABE HY STATE HIGHWAY 286' runs through the area. A scale bar indicates 0 to 2 miles, and a zoom level of 1:500 is shown. An inset map in the bottom right corner provides a broader geographical context.

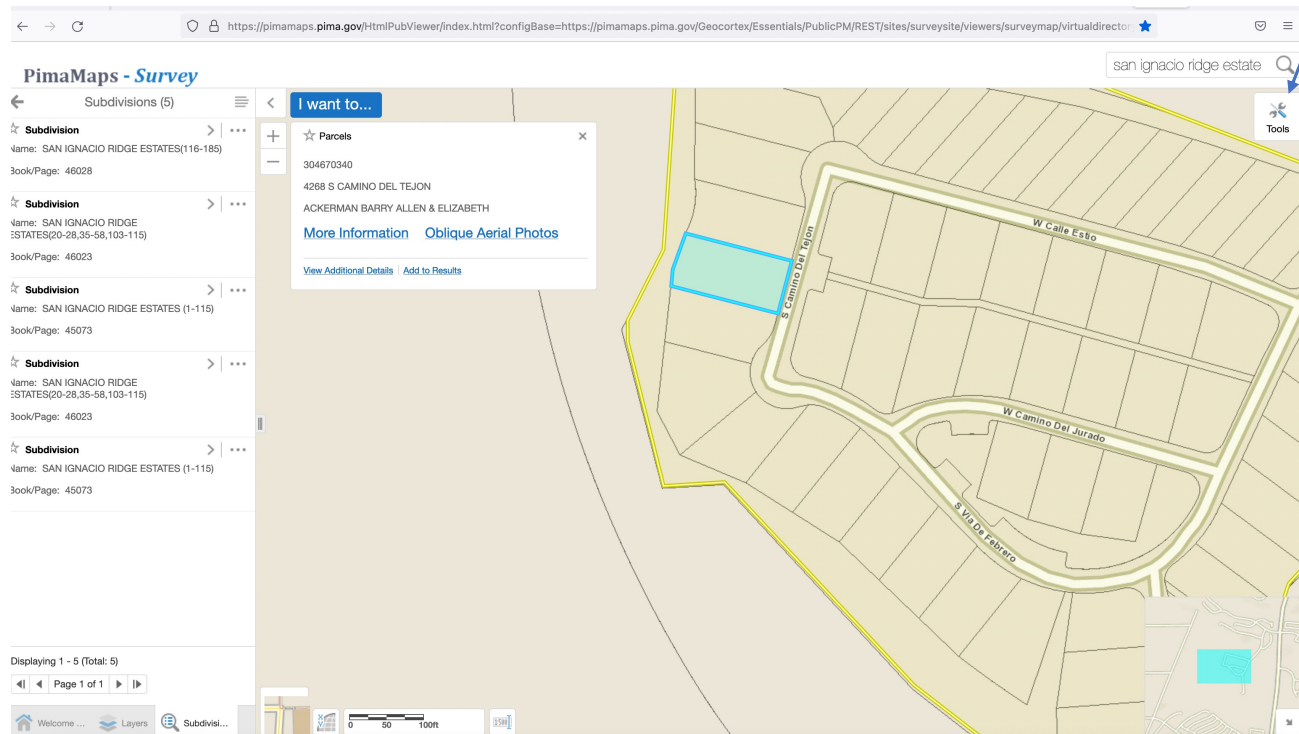

Drag the map to the lot you are interested in and zoom in. Sometimes the outline of our Subdivision will be in blue and sometimes yellow depending on how you navigated around the subdivision

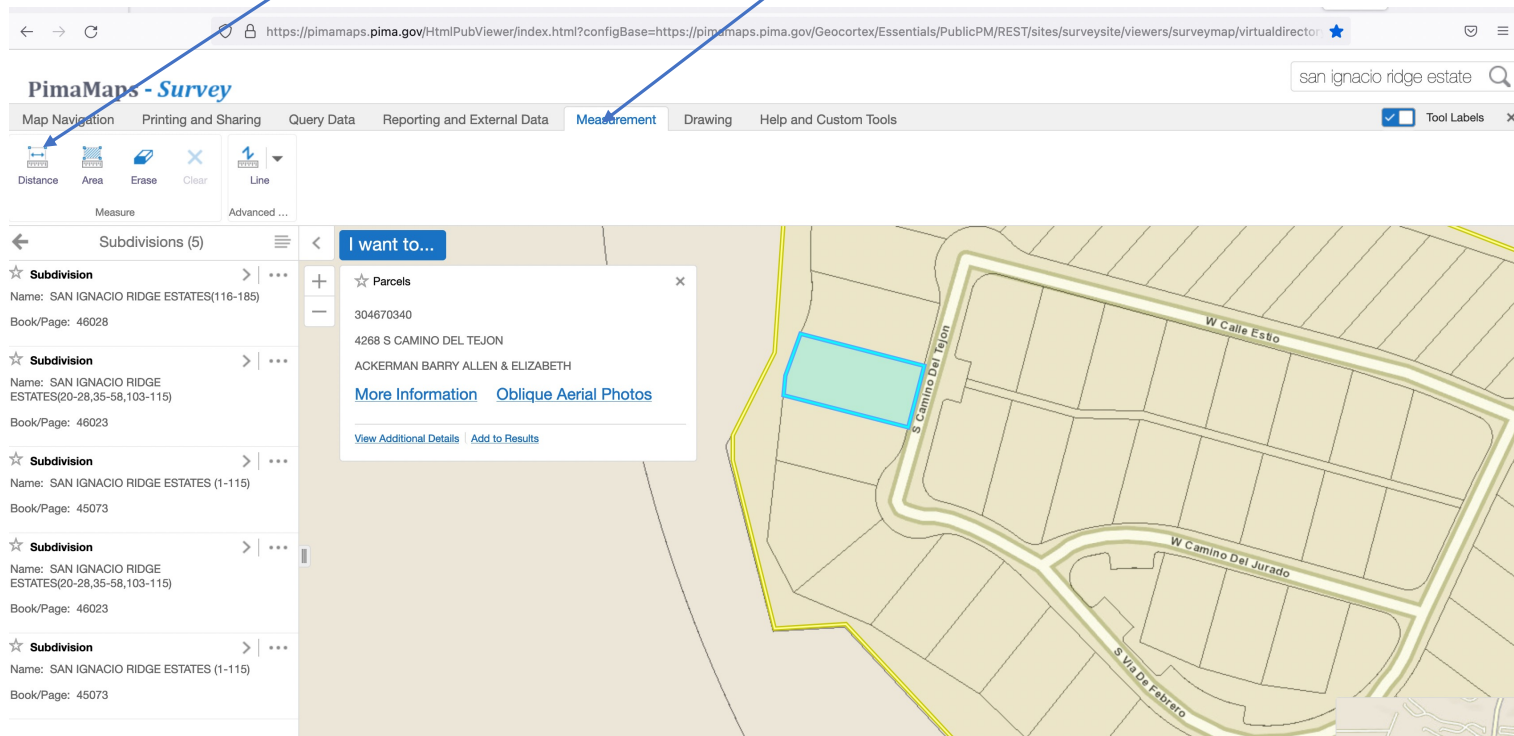

Click on your lot And your information will pop up.

Zoom in, you can drag the map to where you want to position it and click on the tools icon

# Click on the Measurement Tab and then the Distance Icon

Click once to start you measurement, drag your mouse to create a line from you property to end of common area, and then double click you will then see measurements as show below

The screenshot displays the PimaMaps - Survey web application interface. The browser address bar shows the URL: <https://pimamaps.pima.gov/HtmlPubViewer/index.html?configBase=https://pimamaps.pima.gov/Geocortex/Essentials/PublicPM/REST/sites/surveysite/viewers/surveymap/virtualdirector>. The search bar contains "san ignacio ridge estate".

The application has several tabs: "Map Navigation", "Printing and Sharing", "Query Data", "Reporting and External Data", "Measurement" (active), "Drawing", and "Help and Custom Tools". The "Measurement" tab is active, showing a toolbar with "Distance", "Area", "Erase", "Clear", and "Line" tools. The "Line" tool is selected, and a yellow line is drawn on the map. A tooltip above the line displays the following measurements:

- Total: 28.81 ft
- Total: 23.75 ft
- Total: 31.08 ft

The map shows a subdivision with several parcels. A parcel is highlighted in light blue. A pop-up window titled "I want to..." is open over the highlighted parcel, displaying the following information:

- ☆ Parcels
